## WAMSUTTA WARP KNITS

M. Lowenstein & Sons, Inc., completed another major phase of its capital expenditure program with the opening in Union, S.C. of its newest plant, Wamsutta Warp Knits. During the opening ceremonies of the new \$3 million facility, Robert Bendheim, president and chief executive officer of Lowenstein, said: "The decision to build this plant was consistent with our corporate philosophy of entering new growth areas within the textile industry. We believe that warp knits have a great potential and we are determined to become an important source for this growing market."

Wamsutta Warp Knits manufactures, finishes and dyes fancy warp knit fabrics for men's, women's and children's outerwear. The plant covers 135,000 square feet and also serves as a warehousing and distribution center.

Wamsutta Warp Knits is under the supervision of William H. Grier, president of Lowenstein's printing and finishing divisions. Paul Kaufman, head of the Wamsutta Fabrics Division in New York has the responsibility of merchandising and supervising the operations of the plant. Burton Sides is plant manager.

## NAHM '72 CONVENTION TO BE HELD MAY 4-7

The National Ass'n of Hosiery Manufacturers will convene in Key Biscayne, Fla. beginning Thursday, May 4th through Sunday, May 7 for its Annual Meeting in 1972. Headquarters will be the 300-room Sonesta Beach Hotel, for which exclusive convention rights in May have been acquired.
